

WOCMH3 - Wide-body Logistics Container

A folding dry goods container with a huge 2.3m³ internal capacity, the WOCMH3 has some unique features for this size of container:

- A removable long side fold down gate allows foot access without interference once the gate is removed.
- An optional 270° swinging end gate on one narrow side also allows foot access from that end.
- A strong steel base and thicker 5mm diameter mesh make for a more robust container that can better protect contents.

Some of the Applications where this product is used:

- General warehouse duties
- Inter-state Courier goods consolidation
- Factory part storage
- General rental Pool.

Term Rental of these units can be arranged.

**unit is finished in industrial enamel paint and can be sprayed to corporate colour if required.*

**optional asset identification available.*

Features and Benefits

- Durable construction with modular panels which are easily removed for quick repair.
- One long side folds in half and then can be removed for full walk-in easy loading to reduce OH&S dangers associated with bending.
- Optional: A 270° swing door can be installed on one narrow side to allow walk-in access.
- Container folds to nearly one quarter size, saving on storage and transport costs.
- Environmental benefits from reduced packaging materials compared with traditional use of shrink wrapped pallets.
- Easy four way fork lift and pallet truck entry with guides makes for safe lifting.

Optional swing door in open position
