INFRA-RED SPACE HEATERS
Instant comfort—where it's needed!

Heat the person, not the room with
these efficient space heaters.

What's NEW in HEATING 2017 at **SBH SOLUTIONS**

Workspace heating

Benefits of infrared heating

With conventional heating, hot air drifts up to warm the ceiling, not the workplace.

Heliosa infrared heaters warm the person, not the air above - providing immediate comfort and optimum energy efficiency.

Process heating

Don't forget our standard range of insulated heaters for drums and IBC, silicone band heaters, base heaters, etc.
